

DUCHÂTEAU®
FLOORS

DUCHÂTEAU®

DuChateau Floors

DuChateau® Floors reflect passion, art in design, and an appreciation for nature. Handcrafted to express the beauty of a true European floor using natural wood elements, our floors come to life in a style much appreciated by all who admire unique and quality products.

Versatile in its flooring collections which creates different atmospheres, DuChateau® Floors offers a unique combination of old world craftsmanship, luxurious modern designs, and innovative fashionable concepts. Whether reflecting personal style in your own home or making a grand statement in a commercial setting, DuChateau® Floors offers options to meet your desires.

DuChateau® Floors reinterprets the concept of hardwood flooring limited only by the imagination of our master craftsmen. Our core values are to make use of environmentally friendly methods and renewable forest resources, to offer products that are consistently of the highest quality.

DUCHÂTEAU®

The Riverstone Collection

The Riverstone Collection is an evolution of hand-sculpted hardwood flooring that blends beautifully with interiors old and new. Natural distressing and raised knots give the floors a raw and organic contour that feels comforting beneath the feet. While maintaining the elegance that is DuChateau, the Riverstone Collection effortlessly merges modern and rustic to create a truly original and inspiring floor.

The Chateau Collection

The Chateau Collection antique hard-wax oiled floors are designed to reflect the styles found in Europe centuries ago. The Chateau Collection recreates the same time worn look that showcases the character and longevity of a hardwood floor with natural changing grain patterns exemplifying true vintage artistic design. The ordinary free forming elements of natural wood are what give the Chateau Collection floors its unique character and exceptional beauty.

The Palais Collection

In medieval times, parquet floors were highly valued and garnered special attention. Skilled artisans selected hardwoods with the best grains to create eye-pleasing patterns that transcended time and tradition. Our Palais Collection™ celebrates the art form developed by the original parquet masters. It's a renaissance of time-honored artistry blended with modern performance.

Finishing Process

DuChateau Floors Warranty

Lifetime Limited Structural Integrity Warranty

DuChateau® Engineered flooring features a multi-ply cross grain construction made from a durable hardwood substrate that is precision milled for a perfect tongue-and-groove fit. DuChateau® Floors warrants to the original purchaser its products, in their original manufactured condition, to be free from manufacturing defects in milling, dimension, and grade for the lifetime of the floor. Structural integrity does not cover the normal expansion and contraction that wood floors may experience between boards at different times during the year. If minor separations do occur, they are not covered by this warranty. Cupping, delaminating or crowning due to excessive moisture or humidity is not covered by this warranty.

25 Year Residential Surface Finish Limited Warranty

Engineered Hard Wax Oil finished floors are warranted by DuChateau® Floors not to wear through or separate from flooring for 25 years from the date of purchase. Flooring must be used under normal residential traffic conditions, all care and maintenance instructions provided by DuChateau® Floors must be followed for warranty to be valid. The use of other products not approved for DuChateau® Floors may damage your floor and void the warranty.

3 Year Commercial Surface Finish Limited Warranty

Engineered Hard Wax Oil floors are warranted by DuChateau® Floors not to wear through or separate from flooring for 3 years from the date of purchase for commercial applications. Flooring must be used under normal traffic conditions, all care and maintenance instructions provided by DuChateau® Floors must be followed for warranty to be valid. The use of other products not approved by DuChateau® Floors may damage your floor and void the warranty.

FSC® CERTIFIED WOOD PRODUCT

DuChateau® Floors are certified by the Forest Stewardship Council™ (FSC®). FSC® is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests.

Established in 1993 as a response to concerns over global deforestation, FSC® is widely regarded as one of the most important initiatives of the last decade to promote responsible forest management worldwide.

The FSC® label provides a credible link between responsible production and consumption, enabling consumers and businesses to make purchasing decisions that benefit people and the environment as well as providing ongoing business value.

FSC® provides a certification system with internationally recognized standard-setting, trademark assurance, and accreditation services to companies, organizations and communities interested in responsible forestry.

DuChateau® Floors FSC® certificate number is:

FSC® C011173

CARB CERTIFIED WOOD PRODUCT

All DuChateau® Floors are CARB Certified made with a formaldehyde-free adhesive. CARB Certification is commitment to producing environmentally sustainable materials.

The world's strictest formaldehyde emission standards for composite wood products took effect in California starting Jan. 1, 2009. This means particleboard, medium density fiberboard (MDF) and hardwood plywood manufactured for sale or use in California must comply with the new California Air Resources Board (CARB) regulations. The Federal EPA is monitoring the CARB rule and conducting its own risk analysis of the dangers of formaldehyde emission levels for implementing a national wood products emission standard in the near future.

LACEY ACT COMPLIANT

The Lacey Act (16 U.S.C. §§ 3371-3378) legislation requires all importers to declare the species and country of origin of any wood product. The Lacey Act makes it unlawful to import, export, transport, sell, receive, acquire, or purchase in interstate or foreign commerce any wood that comes from illegally logged trees. The Lacey Act is intended to protect forests worldwide from deforestation and prevent illegitimate wood products from entering the United States.

The Lacey Act, originally signed into law in 1900, is a conservation law that focuses on the illegal commercial transportation of wildlife and non-native species. In May 2008 a new bill (Section 8204) extended provisions to the Lacey Act to address the global illegal logging trade.

The Lacey Acts creates a fair playing field for wood manufactures that follow the high level of standards imposed and eradicates illegally logged wood that is often the cause of wood flooring sold below market price.

In an effort to control and eliminate illegally logged trees, DuChateau® Floors supports and abides by the Lacey Act to ensure its customers the best quality wood flooring with environmentally friendly measures. All DuChateau® Floors are Lacey Act compliant.

LEED
LEADERSHIP IN ENERGY & ENVIRONMENTAL DESIGN

US BUILD GREEN COUNCIL MEMBER

DuChateau® Floors is a member of the U.S. Green Building Council. The U.S. Green Building Council (USGBC) is a 501(c) (3) non-profit organization that certifies sustainable businesses, homes, hospitals, schools, and neighborhoods. The USGBC is dedicated to expanding green building practices and education, with its LEED® (Leadership in Energy and Environmental Design) Green Building Rating System™.

LEED® Green Building Rating System™ is a voluntary, consensus-based national rating system for developing high-performance, sustainable buildings. LEED® addresses all building types and emphasizes state-of-the-art strategies in five areas: sustainable site development, water savings, energy efficiency, materials and resources selection, and indoor environmental quality.

DuChateau® Floors qualifies for LEED® credits. This rating system has become the top choice for all architects, builders, and interior designers who construct using green building practices. DuChateau® Floors also has LEED® AP staff to help with any LEED® consulting.

DuChateau® Floors LEED® Qualifiers:

- MR 7 - Certified Sustainably Harvested Wood.
- EQ 4.4 - Low Emitting Materials .
- MR 6 - Rapidly Renewable Materials .

GLOBAL RELEAF® by American Forests

DuChateau® Floors is a partner of American Forests, a non-profit organization whose goal is to plant 100 million trees by the year 2020. American Forests works to protect, restore and enhance the natural capital of trees and forests world-wide. DuChateau® Floors allocates part of it's profits to the Global ReLeaf® campaign by American Forests to plant trees world-wide. In partnership with American Forests, DuChateau® Floors has a promise to its clients, employees, & mother earth:

“At DuChateau® Floors we vow to plant two trees for every tree that we use to produce hardwood flooring”.

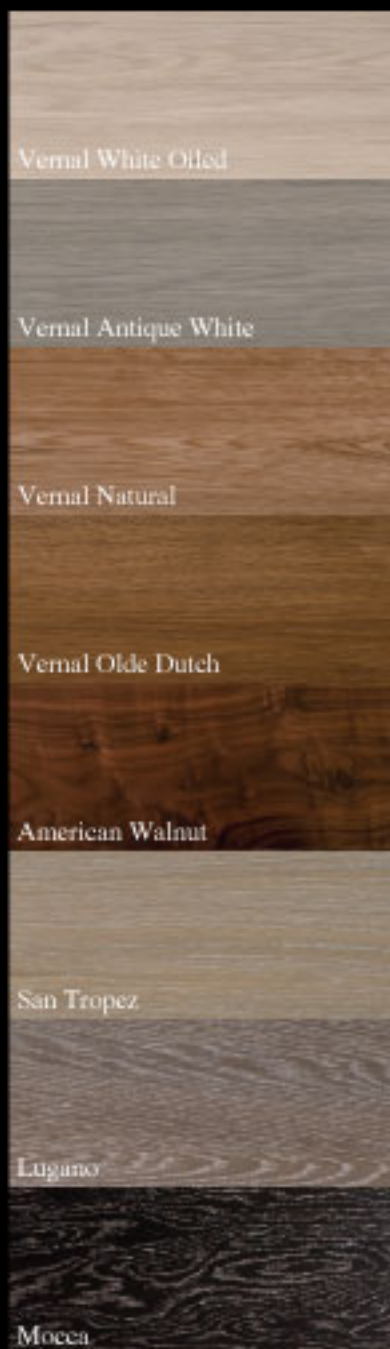

HARD-WAX OIL FINISH

All DuChateau® Floors are finished with DuChateau® Hard-Wax Oil, which is an ALL NATURAL non-pollutant, non-toxic, ZERO VOC finish with no biocides, no preservatives, and benzene free. It has the most environmentally friendly benefits of any wood finish and contributes to a healthy living environment as it is produced from natural materials such as vegetable oil and natural waxes made from purified renewable natural resources. Its open grain structure allows the floor to breathe which has a regulatory effect on moisture ensuring a healthy room climate.

DuChateau® Floors produces its own maintenance and cleaning products made from the highest quality, ALL NATURAL materials. Because of the open grain structure of a Hard-Wax Oil floor, the cleaning and maintenance of a DuChateau® floor is extremely easy. Simply use the ALL NATURAL DuChateau® Maintenance Oil and the ALL NATURAL ZERO VOC DuChateau® Parquet Cleaner as recommended by DuChateau® Maintenance Guidelines and your DuChateau® Floor will last a lifetime and will always maintain its genuine natural beauty.
